To: Sarah Collins and Nominating Committee of the North Carolina League of Municipalities for 2nd Vice President, NCLM Board of Directors

Re: Satish Garimella, Morrisville Mayor Pro Tem

Dear Sarah Collins,

I strongly endorse Satish Garimella for the role of 2nd Vice President, NCLM Board of Directors. Satish is a true servant leader. He is a humble person. He is practical. He has emotional intelligence. Satish listens to his community to better understand their needs and then works towards the common good. He is able to connect people from all levels of our town, county, and state and then focuses them to deliver goods and services.

I have served on the Morrisville Town Council with Satish since 2015. He carefully considers the financial and social impact of his votes. He considers the long term consequences of Council actions.

Examples:

Satish brings together people from all backgrounds. We celebrate our diversity in Morrisville. The Asian / Indian community represents almost 40% of residents in Morrisville and people are from many different regions, religions, and there are over 2000 dialects. Satish works with community leaders to encourage events embracing Morrisville's diverse population. Many of our Town and Neighborhood HOAs host events for Easter, Holi, Spring, July 4th, Summerfest, Halloween, Diwali, Hanukkah, and more.

Satish is a highly respected leader in the Indian American community. He has helped the Morrisville and Cary Police Department better understand the cultural challenges of serving Asian and Indian residents. There have been many outreach programs over the years to help build trust and open lines of communication. These efforts continue today.

Satish is a strong supporter of our public schools. Morrisville needs more public schools due to exponential regional growth and capacity constraints. When a school was proposed adjacent to Satish's neighborhood. Satish worked with the Morrisville Town Staff, Morrisville Town Council, Wake County Staff, Wake County School Board, Wake County Commissioners, and his neighborhood HOA to work through design barriers and code requirements. He kept the County and Town focused on delivering the school. Parkside Elementary in Wake County opened several years as a result of his steadfast leadership.

Finally, Satish is a calming force among competing priorities. The Town of Morrisville is land locked and growth is slowing down. Residents and business are demanding more services and amenities than our town funding model can support. Satish is a numbers guy. He analyzes options with a careful eye on value. He is able to navigate the different levels of government required to ensure the most benefit available. Our town and region is stronger due to his work.

Thank you for your consideration of Satish Garimella for 2nd Vice President, NCLM Board of Directors.

Vicki Scroggins-Johnson

Sincerely, Vicki Scroggins-Johnson, Morrisville Town Council
